Halle, Young General
This is the moment
you've all been
waiting for! (I've
been waiting so
long, I feared I
might pop my claps
beforehand). I was
simply delighted
when E!E!E asked me
to introduce this long-
ingly anticipated A-Z defini-

tion cheats directory. It's everything a man or
woman could possibly want from life - the
cheats cater exclusively for ST, **Asiags** and PG
owners. Just think - you'll never have problems
again, your popularity will soar, and you may
even end up writing some rather excellent
books like my good self. (And become a high
fashion icon, lol.) But before you launch into this
wondrous tome, read these words of wisdom
from a former success story: Beanie and Shane.

Beanie remembers: "I can't believe how
much my life has changed since I bought a
copy of *Five Cheating Heart*. It was here
at first sight, I could never have imagined
such joy could be possible. When we first
met, of course, there were the usual
teething problems. I couldn't get in sync
with the letters cheats. There were some
toll-free I could only hope there is to the
table if I had enough points. Billy and

Cade went through some no problem -
just a case of trying the special words in
at the right place. Everyone was eager to
well so-called body (the idea) to
enable you to see both function keys and
practical simultaneously.

I was a happy old
guy until I discovered
your *Five Cheating
Heart*. Now I'm
happy old forever.
Thank you, E!E!E, for
changing my life."

Shane recalls: "I first spotted Beanie
on the number PG bus, holding
a copy of *Five Cheating Heart*
close to her breast. I wanted
it so much, I got off at the
next stop and walked to the
newspapers, but they
were sold out. I crossed
the shops miserably, but so
near-sell. Oh, how I yearned for
it! So I waited at the bus stop for
six days and nights until Beanie
boarded up again. Now my friends no
longer call me 'Shandy' Shane.
Starbucks was a small price to pay."

HUNTER

(ADVENTURE MISSION)

SOLUTION BY Pavel Giliyev and Daniel Page.

First collect all the items in the two boats on the starting island. Next board the boat and journey northwest towards the stores. Enter the stores and click on left. On the same island enter the house and collect the money cabinet and money. Put on the money cabinet and return to the boat.

Go to the log book and click on the first man. Head towards the coordinates (X 142, Y 188) and enter the hangar. Inside collect the ambulance, follow to the dot on the map (first man). Enter the boat and collect T&E. He will reveal the coordinates of the old man (X 144, Y 185). Enter these into the log book and head back to the rocket boat by the hangar. Place some of the fuel into the boat and set off for the coordinates previously given to you by the first man.

You should now be next to a lighthouse. Enter and continue heading over back to the old man until he releases more. Now select T&E. He should tell you the coordinates of the second man which are (X 99, Y 141). Enter these into your log

book and make sure for these coordinates in the rocket boat. The second man is in the church, enter and head over the grounds until he releases any more. The coordinates of the professor will now be yours.

(X 99, Y 141) are the coordinates that you'll be wanting to head off for at this point. There is a helicopter here and some fuel that will get to the master key at (X 104, Y 149). The master key is obtained behind the stadium. Now head for the professor in the power station. Enter and select T&E, and the girl will ask you to retrieve a nuclear device from (X 258, Y 227). Return to the helicopter, add some fuel, and fly to these coordinates. When arriving there will be three small boats with an electric fence outside. Do not enter the right boat, use track the barrier. Use the third explosives to blow up the right hand boat. Now enter the middle boat and collect the nuclear device. Fly back to professor and hand over a device. Select T&E and he will now get you to finally collect a disk from (X 108, Y 225)

immediately before clicking the first man at (X 115, Y 119). Return to the helicopter and you get the disk, picking up some fuel from (X 224, Y 122) on the way.

Once at the location of the disk, enter the house and walk behind the wedding machine to collect the disk. Return to the helicopter and fly towards the third man. He is obtained behind a rock - select T&E to be given instructions to retrieve both the security pass and computer from (X 224, Y 122) and (X 224, Y 189) respectively.

A security pass and light to the location of the computer later, you should see a boat. Put on the money cabinet, and operate the computer. At this point, enter the information given in the log book and make tracks for the prison at (X 123, Y 239). Enter the prison and talk to the prisoner, he will tell you to take a man from coordinates (X 120, Y 120). Jump to it, then.

At (X 120, Y 120) enter the building, collect the back door and the ambulance. Head back to the previous prison and give the prisoner the backdoor. He will tell you

to pay a visit to the green man at (X 14, Y 124). Make sure that you take some fuel and an arsenal of some kind with you if you are having trouble finding an arsenal, then try the house at (X 14, Y 144). The man will kindly inform you that there is an injured soldier at (X 14, Y 144), which you should go to. Enter the building at these coordinates, talk to the soldier and give him the antibiotics. The soldier will require more even antibiotics before he will tell that the location of the General is (X 124, Y 239) and that there is a handy small at (X 91, Y 124). In for this reason, collect some more antibiotics from (X 144, Y 121) and head over the heavy weaponry.

Pick up the small on the way to the General's location. Here you will find a specially modified prison - I'd like it up with grenades, barbed wire or J&E antibodies from the helicopter if I want you. Oh, and then I'd walk right past of the tunnel into the bunker, fast finally. If you still want to know what I'd do if I was in your shoes, I'd probably shoot the General, rather his head, return to HQ and collect loads of well-deserved credits.
